Unauthorized Surface Disturbance on Mining Claim

A field inspection on September 13, 2013 revealed unauthorized surface disturbances created by machinery on the Spor Mountain Magenta mining claim, UMC377740. Your Spor Mountain Magenta claim is located within the western half of section 10, Township 13 South, Range 12 West, Salt Lake Meridian. The location is within Juab County, Utah a short distance east of the open-pit Materion beryllium mine.

Our records indicate that there is neither an exploration Notice nor a mining Plan of Operations on file with the Bureau of Land Management (BLM) for this location. Have you created any excavations or surface disturbances with machinery on your Spor Mountain Magenta claim? If not, then another party has been active on your claim and you are hereby notified that activity has been observed on your mining claim. If you plan to create surface disturbances for exploration on your claim with machinery, then you must submit an exploration Notice as described in the Code of Federal Regulations (CFRs). You must also submit a reclamation bond as determined by the BLM before you begin operations.

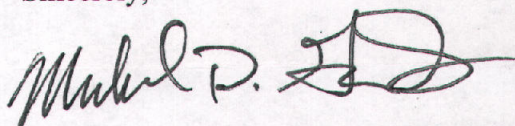

As specified in 43 CFR §3809.21, you must submit a complete Notice of your operations 15 calendar days before you commence exploration causing surface disturbance of 5 acres or less of public lands on which reclamation has not been completed. Also, as indicated within Use and Occupancy under the Mining Laws in 43 CFR §3715.5(b), your uses must conform to all applicable Federal and State environmental standards and you must have obtained all required permits before beginning, as required under 43 CFR part 3800. You must also submit a Financial Guarantee, or reclamation bond, and receive acknowledgement before you may proceed with exploration operations on public land.

Please respond within thirty (30) days after receipt of this letter to:

Bureau of Land Management
Fillmore Field Office
Attention: Michael D. Gates, Field Manager
95 East 500 North
Fillmore, Utah 84631

If you have any questions, please contact Duane Bays, Fillmore Field Office Natural Resource Specialist, at (435) 743-3115.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael D. Gates", with a stylized flourish at the end.

Michael D. Gates
Field Manager
